The Directors are responsible for the preparation and presentation of these condensed consolidated and separate interim financial statements in accordance with IAS 34, '*Interim Financial Reporting*'. Our responsibility is to express a conclusion on these condensed consolidated and separate interim financial statements based on our review.

### **Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Dangote Cement Plc. None of the new standards, interpretations and amendments, effective for the first time from 1 January 2022, have had a material effect on the condensed consolidated and separate interim financial statements.

#### Standards issued but not yet effective

#### **Basis of preparation**

These condensed consolidated and separate interim financial statements for the three months ended 31 March 2022 have been prepared in accordance with IAS 34 Interim Financial Reporting, and should be read in conjunction with the Group and Company's last annual consolidated and separate financial statements as at and for the year ended 31 December 2021 ("last annual consolidated and separate financial statements"). They do not include all the information required for a complete set of financial statements prepared in accordance with IFRS Standards. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group and Company's financial position and performance since last annual consolidated and separate financial statements.

The condensed consolidated and separate interim financial statements have been prepared on the historical cost basis except for derivatives at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

#### Fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure in these condensed consolidated interim financial statements is determined on such a basis, except for leasing transactions that are within the scope of IFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36. Derivatives are carried at fair value.

#### Basis of consolidation

The Group condensed interim financial statements incorporate the financial statements of the Company and its subsidiaries made up to 31 March 2022. Control is achieved where the investor; (i) has power over the investee entity (ii) is exposed, or has rights, to variable returns from the investee entity as a result of its involvement, and (iii) can exercise some power over the investee to affect its returns.

The Company reassesses whether or not it still controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

The financial statements of subsidiaries are included in the condensed consolidated interim financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group.

### 4 Segment Information

#### 4.1 Products and services from which reportable segments derive their revenue

The Executive Management Committee is the Company's Chief Operating Decision Maker. Management has determined operating segments based on the information reported and reviewed by the Executive Management Committee for the purposes of allocating resources and assessing performance. The Executive Management Committee reviews internal management reports on at least a quarterly basis. These internal reports are prepared on the same basis as the accompanying consolidated and separate financial statements.

Segment information is presented in respect of the Group's reportable segments. For management purposes, the Group is organised into business units by geographical areas in which the Group operates. The Group has 2 reportable segments based on location of the principal operations as follows:

- Nigeria (includes Company and all subsidiaries operating in Nigeria. See Note 15.1)
- Pan Africa (includes entities operating outside Nigeria. See Note 15.1)

#### Segment revenues and results

Performance is measured based on segment sales revenue, Earnings Before Interest, Tax, Depreciation and Amortisation (EBITDA) and profit from operating activities, as included in the internal management reports that are reviewed by the Executive Management Committee. Segment sales revenue, EBITDA and profit from operating activities are used to measure performance as management believes that such information is the most relevant in evaluating results of certain segments relative to other entities that operate within these industries.

### 24 Financial liabilities (Contd.)

(a) The loans from Bulk Commodities International, a related party, are denominated in USD with interest rate ranging from 6% to 8.5% per annum.

(b) In 2011 and 2012, the Bank of Industry through Guaranty Trust Bank Plc and Access Bank Plc granted the Company the sum of  $\aleph$ 24.5 billion long-term loan repayable over 10 years at an all-in annual interest rate of 7% for part financing or refinancing the construction cost of the power plants at the Company's factories under the Power and Aviation Intervention Fund. The loan had a moratorium of 12 months. Given the concessional terms at which the Company secured the loan, it is considered to have an element of government grant. Using prevailing market interest rates for an equivalent loan of 12.5%, the fair value of the loan is estimated at  $\aleph$ 20.7 billion. The difference of  $\aleph$ 3.8 billion between the gross proceeds and the fair value of the loan is the benefit derived from the low-interest rate loan and is recognised as deferred revenue. (c) The Company issued bonds with a total face value of  $\aleph$ 150 billion and a coupon rate of 11.25% to 13.5%. The tenure is between 3 to 7 years.
